BIODÉZOSPORT ODOUR NEUTRALIZER

LES PRODUITS
SANITAIRES
LÉPINE INC.

BiodézoSport is an odor neutralizer using the rapid and ecological action of specially selected bacteria to destroy the characteristic odors of soiled clothing and sports equipments. When used preventively, it naturally prevents the development of foul odors from shoes, skates, gloves and other equipments made of absorbent materials.

PHYSICAL DATA

APPEARANCE: Colourless liquid

ODOUR: Perfumed

pH: Neutral

FREEZING RESISTANCE: Keep from freezing

FLAMMABILITY: Nil

ACTIVE INGREDIENTS: Blend of bacteria

STABILITY: Stable 1 year, in its original container

MISCELLANEOUS: No caustic, no solvent

USE

To control bad odors from fabrics and equipments such as skates, boots, shoes and protective equipments.

DIRECTIONS

Shake well before use.

To control bad odors, spray the product until slightly moisten and let dry. Repeat the operation if necessary. For best results, apply before odor appears.

Always test the product first on an inconspicuous area.

The packaging is fully recyclable where facilities permit.

ADVANTAGES

BiodézoSport is very concentrated, therefore very effective.

BiodézoSport masks the odor upon application in addition to the long-term effect of bacteria.

BiodézoSport does not contain any pathogenic bacteria.

BiodézoSport contains no solvents, caustics or strong chemicals.

⚠ PRECAUTIONS

Avoid contact with eyes and skin. Do not swallow. Avoid contact with very irritated skin or cutaneous infection. It is preferable to wear goggle and rubber gloves if the skin is very irritated or in presence of cutaneous infection.
