FOSFO

LIQUID DESCALER

FOSFO is a product especially conceived for restaurants or food processing plant equipments. Eliminates tartar caused by hard water, rust and tarnish on stainless steel, glass, industrial equipment, plastic, etc. **FOSFO** is odourless and colorless; it doesn't produce vapours and rinses out easily.

PHYSICAL DATA

ASPECT: Liquid

COLOR: Colourless

ODOUR: Odourless

pH: <1

FLAMMABILITY: No

COMPOSITION: Phosphoric acid

Citric acid

TOXICITY: Corrosive

CFIA: Letter of no objection

USE

For commercial dishwasher and glass washer, coffee maker, stainless steel heater, etc.

DIRECTIONS

COMMERCIAL DISHWASHER AND GLASS WASHER: Fill in the dishwasher and pour 250mL of **FOSFO** inside. Start the cleaning program and let it work for 5 minutes or until tartar is dissolved. Rinse with potable water.

COFFEE MAKER: Prepare a solution of 20 ml of **FOSFO** per litre of water (3 oz/gal) in the carafe and pour this solution in the coffee maker. Run coffee maker (without coffee). Throw this solution then run coffee maker again 2 times with potable water to rinse well.

SURFACES AND TABLES MADE OF STAINLESS STEEL: Spray or spread a solution of 20 ml of **FOSFO** for 1 litre of water. (3 oz/gal.). Let stand the solution for 2 minutes. Rinse with potable water.

ALL SURFACES IN CONTACT WITH FOOD MUST BE THOROUGHLY RINSED WITH POTABLE WATER.

PRECAUTIONS

Avoid contact of the product with eyes or skin.

Wear rubber gloves and protective goggles.

Keep away from freezing.
